CHIPPENHAM BUSINESS KICKS OFF RECRUITMENT DRIVE AS FACTORY EXPANSION COMPLETES

Fascia Graphics to recruit a further eight staff to support growth strategy...

Fascia Graphics to recruit a further eight staff to support growth strategy...

Chippenham based, Fascia Graphics has completed work to increase production space at its Bath Road Industrial Estate factory. With an additional 3,000sq.ft and further companywide growth expected, Fascia is now actively recruiting for eight positions, including: Production Engineer/Engineer Manager, Graphic Designer and Pad Print Manager.

Since it was established in 1994, the independently run company has grown year on year to become a significant employer in and around the Chippenham area. The company presently employs 60 staff and it is expecting a further 15 per cent increase in staff numbers this year.

The company is recruiting a Pad Print Manager as it will use some of the additional production space to dedicate an operational area to its new pad printing technology. This technology will offer customers the choice of printing onto a far greater choice of materials (metal or plastics) and shapes/surfaces. For instance, Fascia will now be able to print onto parts that are angled, concave or radiused such as car switches, or recessed areas.

Paul Bennett, Founder and Managing Director of Fascia Graphics Limited commented: "Now that work is complete on our factory we are really putting an emphasis on recruiting highly skilled staff for a number of key positions. As a company, we are constantly looking at new and innovative ways to provide a better service to our customers. For instance, our new pad printing will allow us to print onto a vast number of substrates and into troughs, channels or onto concave or convex areas."

Fascia Graphics is bucking the industry trend by experiencing strong growth, whilst the rest of the industry is in regression. The company is now widely accepted across the industry as the market leader with over 600 clients, including well-known Blue Chip West Country businesses.

Fascia Graphics

Established in 1994, Fascia Graphics Limited is the UK's leading supplier of screen printed labels, membrane keypads and graphic overlays. The company operates from a purpose built factory in Chippenham, Wiltshire; utilising the latest technologies and techniques for the manufacture of membrane keypads, overlays, labels and associated products to BS EN ISO 9001:2000 quality standards.

In 2007, the company achieved the UL Mark and PGDQ2 Recognition to standard UL969, the most accepted safety certification mark in the US by consumers, regulatory authorities and the insurance industry. During the same year, the company increased capacity by up to a quarter after training shopfloor workers in lean manufacturing techniques through the LSC's Train to Gain programme.

The company works with leading players in the medical, fire and safety industry.
